

Fig. 1

8/1/2000

Diagram illustrating a circular array of elements, likely representing a color filter or sensor array. The array is composed of numerous small circular units, each containing a letter (R, G, or B) indicating its color. The units are arranged in a grid-like pattern within a larger circle. The legend indicates:

- R = RED
- G = GREEN
- B = BLUE

Labels 24a, 24b, and 24c point to specific regions or units within the array. Label 32 points to the outer boundary of the array.
